"Chris Greisen was our leader when he won our first National Championship in 1998. He believed in himself, and everyone on our team believed in him. Under Chris Greisen's direction your son will not only become better quarterback; he will become a better person."

– Mel Tjeerdsma

"Blake Peterson was one of my star pupils in the QB Academy. We have always talked about the importance of playing "for" your teammates and not just "with" them. Blake possessed the skills, the high integrity and character to be successful at the quarterback position and now as a coach, to pass those skills and values on to aspiring quarterbacks.

– Chris Greisen
